Email

seamus@designbarn.co.uk

Hello World.

I'm Seamus – a web developer with commercial experience in both front-end development and graphic design. I have been professionally working building websites since 2018. I pride myself on being a fast learner and always seeking out new opportunities to improve my skills. My strong attention to detail and dedication to delivering quality work make me an asset to any project.

After completing a coding bootcamp earlier this year I am actively looking to join a team that I can continue to learn from and develop my skills with.

WORK EXPERIENCE

2019 - Current

Web Developer

Design Barn (freelance)

designbarn.co.uk

2018 - Current

Digital Marketing Manager

Open House (in-house), Bangor NI

courthousebangor.com

openhousepresents.com

openhousefestival.com

Design Barn is my freelance business. I work with clients on every step from ordering a domain and setting up their hosting and emails to delivering a finished, responsive website with SEO, analytics and an easy to use CRM. Clients have ranged from a multi-university led engineering project to charitable organisations and local businesses.

I've been with **Open House**, a venue, festival and events non-profit, as their web and graphic designer since 2018, and in 2023 gained the position of digital marketing manager. I design and maintain their websites and handle all of their graphic design needs, across full Festival launch posters, to social media content and advertising materials.

The Court House opened as a venue, and home, for Open House in October 2022. I designed the brand with colours, logo and fonts. The main challenge was building an events calendar system that is easy for my colleagues to update. I worked hard to make the site accessible, fast and have good SEO - with a focus on event schema.

SKILLS

Front End Web Development

- Proficient: HTML, CSS, Js, Tailwind, Bootstrap, Git, Wordpress
